

worknow

Worknow is a community marketplace that helps people find, connect and work together.

We are a community of talented people seeking new, more collaborative and flexible ways to work together.

Our marketplace allows members to find and connect with work. We use a simple bid and buy process to more effectively connect people seeking work with those who need work done.

Post Work

Whether it's a home renovation, creative design project or an automotive repair we'll help you find and connect with the best person for the job.

Anyone can post work opportunities; Paid or unpaid; contract and freelance; short and long-term projects or one-off jobs. The more information provided the easier it is for people to provide an accurate bid.

Find Work

Our online work-bid system can help you find and bid on work so that you can get paid for doing what you do best.

You can find work by searching or browsing our site. Friends can refer work to you plus we will notify you of work opportunities that match your profile. You can then bid to work on projects.

Award Work

Compare bids and award the work to the best person for the job based on your own preferred criteria.

Together you agree to contract and get the work done. On fulfilment of the agreed work contract both parties place feedback at which time they also transfer Time Credits, if applicable.
